# Creating the change we want to see

## Responsibility in every stitch.

We're committed to improving the lives of everyone we work with. It's why we started the Genuine Responsibility™ program.

## Caring for our people.

Investing in people is the cornerstone of our success. We're committed to offering fair wages, developing opportunities and good benefits, all while providing a safe and healthy work environment.

## Conserving the environment.

We're for sustainability and continually strive to innovate toward solutions that reduce waste and conserve water. We also source most of our cotton where we know our environmental goals are shared by our growers.

## Creating stronger communities.

We have a responsibility to be an active participant in the communities where we operate. That's why we're working hard to create economic development opportunities that favour local suppliers and create stronger, healthier communities.

# PRIVATE LABEL CONCEPT

Lemon & Soda  
Private Label Concept

Be inspired for tailor  
made promotional and  
corporate clothing!

## The endless possibilities of Lemon & Soda Private Label Concept

A complete line or just a unique article, specially designed and produced in your own house style or appearance. That is what the Lemon & Soda Private Label Concept stands for! We design and produce high-quality clothing; naturally in the style of the company or according to the customer's taste. The Lemon & Soda Private Label Concept is the solution to tailor the line or article completely to the customers wishes.

Work clothing largely determines the presentation of your company. Design, colour selection and the correct processing of the house style ensure recognizability and a professional appearance. In addition, employees feel more comfortable in smart-looking and wellfitting clothing; which again means a positive effect to your customers.

Promotional clothing can be an essential part of your company's marketing mix. Whether it is a single item or the development of a complete collection: the Lemon & Soda Private Label Concept makes all this possible! You can count on a flexible way of working according to a pre-agreed schedule. Your order is, from request to delivery and from day to day, accompanied and guided by an enthusiastic team of professionals.

## WHY?

### The result is original and authentic

After all, every image is unique. You do not always have to settle for standard items. However, you can use them as an inspiration to set up your own clothing line. And that is very easy with the Lemon & Soda Private Label Concept.

**This approach is of added value when you:**

- Have your own vision on promotional or corporate clothing
- Create an existing article tailored to your needs
- Give your own twist to the collection
- Want to fully integrate the corporate identity of your company
- Want to show exactly what your company stands for

## Create your own clothing line or article in 4 easy steps

Select your model and options

Pick your colours

Choose quality and weight

Add decorations and accessories

## Select your model and options

The first step is to choose the model and the desired size: from comfort fit to body fit, from baby sizes to big sizes.

### POSSIBILITIES

The number of items you order determines whether the desired customization options are possible. For example, a custom-made product is already possible with a minimum order quantity of 250 pieces. Of course these pieces may be divided over 2 models. The minimum order quantity per model is then 100 pieces.

### Tip

- Use the possibilities from The Choice as inspiration
- Send us a sample, from which we make one-to-one copies
- Tell us about the desired model and we will make a digital presentation for you

## Pick your colours

Custom made items can be in any colour with any contrast colour you want. Consider, for example, a contrast sleeve, contrast closure, contrast zippers, contrast tipping or piping. There are many contrasts possible.

From 250 pieces it is possible to create a garment in your own PMS colour. This quantity can be divided over two models, if the minimum number per model is 100 pieces. For example 150 pieces for him and 100 pieces for her.

### Tip

Send us the Pantone colours of your brand, so that we can advise you,

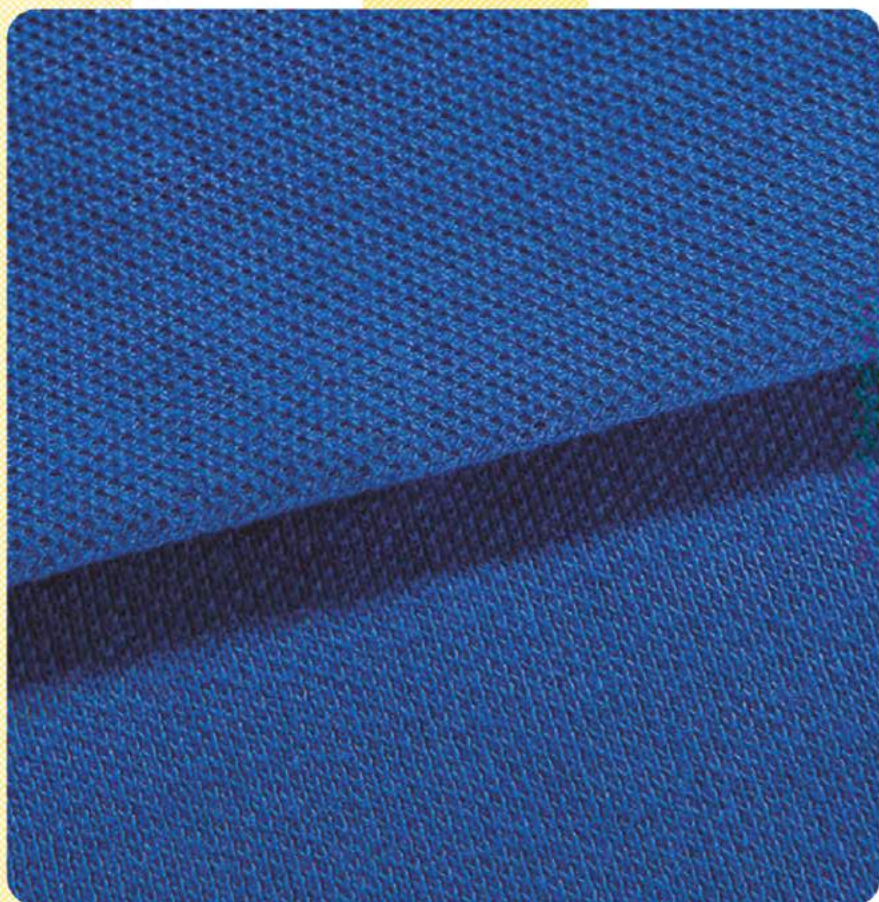

## Choose quality and weight

A private label article can be produced in many different fabric qualities and weights. We are happy to advise you which material suits which item best.

For example, a T-shirt can be produced in 100% cotton, cotton with polyester, 100% polyester or cotton with elastane. The weight of the material can also be determined by yourself.

### Tip

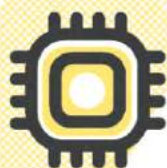

Be inspired by the qualities of the Lemon & Soda collection. In this collection you can see and feel many different qualities and weights.

PLC

## Add decorations and accessories

The final step is adding decorations and accessories. There are many possibilities:

Private neck label /  
private neck print /  
transfer

Print (plastisol /  
high density /  
sublimation etc)

Embroidery /  
embroidered  
badge

Badge

Contrast  
buttons /  
branded buttons

Printed / woven  
(neck) tape

Woven  
side label /  
tag label

Woven pullers /  
silicone pullers

Hang tags

Silicone badges  
in any desired  
shape

Normally, your item is packed individually in a polybag. However, the choice is yours.  
You can also choose for a branded polybag or printerfold packaging.

## Delivery time

You know exactly what you're up to.

Lemon & Soda Private Label Concept delivers customization. Your specific wishes in combination with the desired quantities determine the costs. The delivery time is agreed in advance and depends on a quick approval of lab dips, decorations and samples.

This time schedule is a guideline only and depends on the production region:

**Approve order confirmation  
and presentation**

Week 1

The order is placed at the factory

**Approve lab dips  
and labels**

Week 3

### Delivery

Middle East: week 10-12  
Far East: week 18-20

### Approve pre-production sample

Middle East: week 7  
Far East: week 10

### Approve print and/or embroidery sample

Week 5

### Approve other accessories

Week 6

# ADDITIONAL INFO

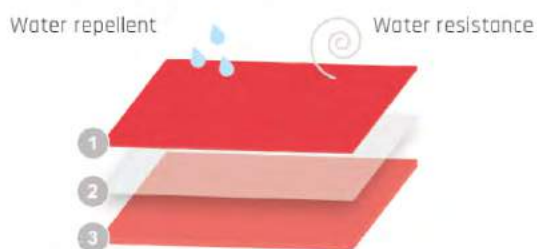

# Always on the move with softshell

In wintertime or when working outside water resistant clothing is a must. The best protection against nature's way? Softshell! Softshell clothing offers warmth, comfort and is water repellent. It breathes and is flexible, making this type of material very suitable for outdoor activities, such as exercise and work.

There is a type of softshell for every occasion. To make the right choice, keep in mind the Thermoplastic Polyurethane (TPU), water resistance and breathing properties. It will help the wearer to stay warm and dry during activities.

## THREE LAYER SOFTSHELL BONDED

### 1. Outside

Polyester - spandex --- poplin

### 2. TPU breathable membrane

- Wind- and waterproof
- Breathable

### 3. Inside

100% polyester --- microfleece (anti-pilling)

# The Choice 2022 Fitting

## OVERSIZED FIT

The concept of oversized clothing has taken over the fashion industry and we too love these clever tailored, chic shirts with great freedom of movement, yet completely fashionable.

## COMFORT FIT (Classic fit | Casual fit)

Drapes away from the body for a relaxed fit and extra movement. A timeless shirt has a generous, comfort forward cut and fuller sleeves for freer movement throughout. This fit has a comfortable width. These styles have the traditional straight cut that has been in style since the T-shirt was born. The comfort T-shaped design still plays a very important role in the promotional market. A refined take on the comfort fit, featuring a straighter body and sleeves and wider armholes.

## REGULAR FIT (Euro fit)

These styles follow your body in a flattering way, without clinging to it. The sleeves and shoulders fit closer to the body. The regular fit is currently the most popular shape in a T-shirt.

## SEMI-FIT

Slightly contoured, sideseamed shirts for women who like a slightly looser fit with shape.

## BODYFIT (Fitted)

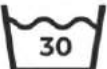

Our body fit styles are slim cut and rather clinging to your body. Contoured and side-seamed for a more next to body fit.

# Careguide

We care about the garments that we produce, so we choose our materials very carefully. Follow the instructions on the care label to enjoy these garments even more!

				
Washing	30°C fine wash	40°C normal wash	60°C normal wash	Wash by hand Max. 40 °C
				
Bleaching	Any bleaching allowed	Only oxygen/non-chlorine bleach allowed	Do not bleach	
				
Drying	Mild drying process	Normal drying process	Do not tumble dry	
				
Ironing	Low temperature iron (max. 110°C)	Moderate temperature iron (max. 150°C)	Hot temperature iron (max. 200°C)	Do not iron
				
Professional Textile Care	Professional dry cleaning normal process	Professional dry cleaning normal process	Professional wet cleaning normal process	Do not dry-clean

## WASHING TIPS

- Always read and follow the care label
- Read and follow the instructions on your detergent pack
- Use the recommended amount
- Polar fleece and sweats can best be washed before wearing
- Wash inside out
- Close zippers before washing
- Sort laundry by temperature in care label, 40 °C, 60 °C etc.
- Wash dark colours separate
- Don't iron on decorations

## WASHING & THE ENVIRONMENT

Washing and drying at home, accounts for 75% of the energy used in the lifecycle of a garment, so it is really an area in which you have an impact on the environment. We recommend that for best cleaning you wash your clothes at the temperature shown on the care label. However, in many cases where a garment really only needs to be refreshed rather than cleaned, it is ok to wash at 30°C. Natural drying on a line or rack will reduce the amount of energy used in the aftercare process. However, it is not always practical, especially with

Northern European weather and therefore many people use tumble driers. As with all domestic machinery buying a dryer that has a good energy rating will help to ensure you are using energy in the most efficient way.

Water is a precious commodity. In order to help minimize your usage try the following:

- ALWAYS WASH A FULL LOAD
- PRE-WASHING IS NOT NEEDED FOR MOST GARMENTS
- IF YOU HAVE A CONDENSER DRYER, REUSE THE WATER – IT'S GREAT IN IRONS.

# Certificates

The articles and materials, such as thread and buttons, have been tested for harmful substances and meet the extensive safety and quality standards that apply according to the Oeko-Tex-100 certification. This means that these articles do not contain any substances that are harmful to health. By carrying this quality mark, the manufacturers must continuously check and monitor the quality of the production in order to continue to guarantee safety.

WRAP stands for Worldwide Responsible Accredited Production. It is the world's largest independent certification program, focusing on social compliance for the sewn products industry. WRAP is based on twelve principles ensuring that basic working conditions in factories are understood and implemented. The monitoring is done by third parties, so that independently is established that manufacturers comply with WRAP.

Gildan has translated the Gildan Quality System (GQS) into a website on Genuine Responsibility. With their facilities and manufacturing, Gildan aims to implement industry-leading environmental, social and governance measures at every stage of the process. Visit the website [www.genuineresponsibility.com](http://www.genuineresponsibility.com)

Amfori, an international professional organization committed to open and sustainable trade. Legal, humane and ethically responsible production is central to the Business Social Compliance Initiative (BSCI). This means that child labour, environmental nuisance and abuse are prohibited. Manufacturers must therefore adhere to the BSCI regulations regarding working hours, health, safety and the environment.

The Sustainable Apparel Coalition focuses on sustainable production in the clothing, shoe and home textile industry. The alliance primarily focuses on the Higg Index, a standardized supply chain measurement tool. This allows all participants to provide insight into and interpret the impact of their production on the environment, as well as working and social conditions. This allows urgent matters to be solved, which companies could never change independently.

Cotton Council International (CCI) is a non-profit trading association promoting American cotton fibers and cotton products worldwide with the Cotton USA trademark. Gildan is licensed for Cotton USA, which means the cotton in their products is from American soil and the products contain more than 50% cotton.

Ethical trading and improving working conditions in global supply chains; that is what Sedex is committed to. Gildan is a member of this service provider

The ecological styles of Stedman with this label are made of 100% OCS certified ring-spun organic cotton. No toxic pesticides and fertilizers were used during the cultivation of the environmentally friendly cotton. This certificate is issued by Control Union Certifications (CU 819645).

SPQ stands for Stedman Proofed Quality. This is the certificate with which Stedman wishes to propagate all items are subject to strict quality controls. This applies to both the materials and the products.

# Back to School

Back to School Project Bangladesh has a very good network of primary and intermediate secondary schools, and higher secondary colleges. Families can get education for their kids at a very low or no cost. Yet there are families who don't see the opportunities education brings. They focus on the short term gains and choose to let children work in the household or farming. Even though this means they drop out of school. That is why The Choice founded the Back to School Project together with a manufacturer in 2007.

## Change the future

The manufacturer, who owns a local factory, recognized extreme poverty in Gonopaddi. This village is located in Sherpur, an agro-based and underdeveloped district 198 kilometers from Dhaka at the norther border with India. Most of the kids in this region are drop-out students and families do not have enough to eat. The lack of education leads to this poverty, because eventually uneducated children become a liability for themselves and their village. They are not able to support themselves in the long run. Help was needed in order to change the social and economic condition.

## Stimulating children's potential

The Back to School Project noticed these

problems and created a program focused on drop-out students. The philosophy of the program is to transform each child into its own change agent. It's not limited to learning; it's also focused on stimulating one's potential. Good practices, helping others, and living a healthy life, are all part of the project. The goal is to teach children self-worth as well as value of education so they can influence the economic scenario and engage in societal welfare. The Back to School Project has kickstarted a huge development; some of the grade 1 students who started with the program ten years ago are now attending university. These original school drop-outs strive to become a doctor, engineer, minister or parliamentarian instead of working in the household or farming.

## Success of the project

The first year of the Back to School Project started with twenty students. Initially, there were only two teachers. The students were split up into grade 1 and grade 2 classes. Since there were only a few students per class to manage, the lectures were very effective. Unlike regular schools there were incentives for attendance: free eggs and biscuits, free soap and toothpaste to stimulate health and hygiene, and extra and co-curricular activities to develop other social and cultural skills. The first results were tremendous. More and more students were eager to join the school in the years that followed. Today, there are more than two hundred students, twenty teachers, and computer training programs for the basic courses. The scope of the school has expanded to grade 12. Students up to grade 4 are scattered across ten satellite places in the village getting lessons from higher grade students. Students from grade 5 attend the main school building to follow lectures, given by regular teachers.

## Make your own change

Together with the manufacturer The Choice helps these children to make their own change. Nowadays there are no real school drop-outs in Gonopaddi. All children have been included in the Back to School Project. They have become their own change agents with the ability to transform the Sherpur-district for a better future.

## The Back to School English Club

In the poverty-stricken village Gonopoddi most students learn English by memorizing exercises from their textbooks. After twelve years of studying, most of them still aren't able to understand and read English. The Back to School English Club was initiated to help these students - ranging from grade six to grade eleven - to develop the English language.

The thirty participating students are divided into groups of six members. Each group is assigned a leader from within the group, who helps others while learning themselves. These group leaders report to club manager Mr. Babul who reaches out to coordinator Zaafir Hasan when necessary.

### Goals of the initiative

- Improve students' understanding and communicative skills in English.
- Enhance and improve their ability to network.
- Develop leadership qualities among students.
- Advance students in the field of technology.

Two months after starting the club students have let go of their fears and are fully committed to learn English, driven by their enthusiasm to overcome illiteracy.
