FITTING

Body fit

Our body fit styles are slim cut and rather clinging to your body. Contoured and side seamed for a more next to body fit.

Regular fit

These styles follow your body in a flattering way, without clinging to it. The sleeves and shoulders fit closer to the body. The regular fit is currently the most popular shape.

Comfort fit

Drapes away from the body for a relaxed fit and extra movement. A timeless fit has a generous, comfort forward cut and fuller sleeves for freer movement throughout. This fit has a comfortable width.

Longer length

In addition to the different sizes, these T-shirts are longer than standard size, which ensures a pleasant wearing comfort.

A tear-away brand label or no brand label in the neck. This makes personalization very easy.

In transition.
A tear-away brand label or no brand label in the neck. This makes personalization very easy.

T-SHIRTS

The I-Tee has been treated with a bio-washing which provides an extra

SMOOTH SURFACE.

This makes the T-shirt ideal for printing or embroidery.

ALWAYS ON THE MOVE WITH SOFTSHELL

In wintertime or when working outside water resistant clothing is a must. The best protection against nature's way? Softshell! Softshell clothing offers warmth, comfort and is water repellent. It breathes and is flexible, making this type of material very suitable for outdoor activities, such as exercise and work.

There is a type of softshell for every occasion. To make the right choice, keep in mind the Thermoplastic Polyurethane (TPU), water resistance and breathing properties. It will help the wearer to stay warm and dry during activities.

3 LAYER SOFTSHELL BONDED - 4 WAY STRETCH

Water repellent

Water resistance

PRIVATE LABEL

your story your style your private label

Private Label by Lemon & Soda is a unique clothing concept to strengthen your corporate identity or image of your company. We will work with you to translate your corporate identity and appearance into a suitable clothing line. We think along with you throughout the entire process, from concept to delivery, and provide advice where necessary. This way the end product fits seamlessly with your wishes.

A strong and recognizable image is of great importance for your brand or company. We design and produce clothing that is completely tailored to your wishes and requirements. Whether you are looking for corporate, promotional or merchandise clothing, Private Label by Lemon & Soda has it all!

Through years of experience in the clothing industry, we ensure that the process is simple and efficient for you. We are ready to guide you every step of the way. From designing the clothing, selecting the right quality fabrics and colors, to refining your logo and other artwork. We ensure that the items perfectly match your brand identity.

With Private Label you are assured of high-quality clothing. These clothes are made from durable materials that are comfortable to wear and last a long time. In addition, we have strict quality controls to ensure that only the best garments leave the factories.

Flexibility is paramount. Whether it concerns small quantities or larger production runs, we can meet all your wishes. We also offer the option of hang tags with your own logo and custom packaging. This so that your clothing line exudes even more exclusivity.

Curious about what we can do for your brand? Contact us and make a lasting impression with Private Label by Lemon & Soda!

why?
the result is
original and authentic

your PRIVATE LABEL

in 5 steps

Private label is of added value when you:

- Have your own vision on promotional and corporate clothing
- Want to customize an existing item
- Wants to put your own twist on an article
- Want to integrate your company's corporate identity more fully
- Wants to radiate exactly what your company stands for

step 1

Orientation phase

The process starts with an initial conversation between you as a customer and our team of designers. We delve deeper into the wishes and needs for your custom made clothing. We listen carefully to your ideas and ask questions to get a clear picture. We discuss which models and colors you have in mind and whether there are preferences for certain operations.

You or the end customer may also provide a model. Of course we can also make these.

unique designs and
technical expertise
come together
at Private Label

step 2

Design phase

Based on the information we have collected during the orientation phase, we will start creating the first designs for your private label clothing line. We make sketches to visualize the different styles and designs. We then present these to you and discuss any adjustments.

with your corporate identity vision
as a basis, we can provide even
better advice

step 3

Material selection

After approval of the designs, we start selecting the right materials. We work with reliable suppliers to find high-quality fabrics and materials that match your designs and quality requirements. We ensure that the materials are comfortable to wear and long lasting.

step 4

Quotation and order confirmation

After the materials have been chosen, the price is requested. This is supplied in a quotation, which once again includes all previously discussed and chosen details, such as the composition, operations and delivery time. If there are any adjustments, no problem, they can still be processed. As soon as the quotation has been approved and the size distribution is known, everything is worked out in detail in the order confirmation. After approval of the order confirmation, the production process starts.

everything is
worked out
down to the
smallest detail

step 5

Production process

Now that the order confirmation has been approved, we can start the production process of the private label clothing line. We work together with experienced manufacturers who specialize in producing tailor-made garments. First come the lab dips to determine the correct color. After the color has been selected, the fabric is knitted or woven and then dyed. You will then receive any print, embroidery or other branded accessories for approval.

Then follows the pre-production sample. Everything that has already been approved in parts comes together here. It is the right fabric quality, in the right color, with the right fit and with all approved treatments and accessories. It is, as it were, the first and final product from the production line. As soon as this has been approved, production will start.

We are in constant contact with you and the manufacturers to ensure that production goes according to plan and quality is guaranteed.

Quality control and delivery

Before the clothing is shipped, we subject the products to strict quality control to ensure that each item meets the highest standards. We pay attention to matters such as correct sizing, sturdy stitching and good finishing. After this check, the garments will be sent to you.

Support after extradition

For us, the process does not end with the delivery of the garments. We also offer post-delivery support to ensure you are happy with the end result. We are ready to answer questions and help with any problems. We strive to build a long-term partnership and make your private label collection successful.

With the Private Label by Lemon & Soda you are assured of high quality, unique designs and excellent service. Together we create a clothing line that fits your identity and brand values. Contact us and discover the many possibilities for your own private label clothing line.

BACK TO SCHOOL

Back to School Project Bangladesh has a very good network of schools at all levels. Children can receive education at very little or no cost. Yet there are families who do not see the opportunities that education offers. They focus on short-term profits and allow children to drop out of school to work in the household or on the farm. That is why Lemon & Soda founded the Back to School Project together with a manufacturer in 2007.

Change the future

The local manual recognized extreme poverty in his village of Gonopaddi, an agro-based and underdeveloped district on India's electronic border. Most children in this region are drop-out students. Many families do not have enough to eat. The lack of education leads to this poverty because they cannot sustain themselves in the long run. Help was needed to change the social and economic situation.

Stimulating children's potential

The Back to School Project noticed these problems and created a program aimed at dropout students. The philosophy of the program is to transform each child into their own change agent. It is not limited to learning; it is also aimed at boosting one's potential. Good practice, helping others and living a healthy life are all part of the project. The goal is to instill self-esteem and value of education in children so that they can influence the economic scenario and engage in social welfare. The Back to School Project has started a huge development; some group 1 students who started the program ten years ago are now studying at the university. These original school leavers aspire to become doctors, engineers, ministers or parliamentarians rather than work in the household or on the farm.

Success of the project

The first year of the Back to School Project started with twenty students with only two teachers. Unlike mainstream schools, there were incentives to go to school: free eggs and biscuits and extracurricular activities to develop other social and cultural skills. They also received soap and toothpaste for health and hygiene. Because of the great results, more and more students wanted to participate and today

there are more than 200 students, 20 teachers and computer training programs for the basic courses. Students up to and including class 4 are taught by students of the higher class. Pupils from group 5 come to the main building to attend lectures given by regular teachers.

Make your own change

Together with the manufacturer, Lemon & Soda helps these children to transfer money themselves. Today there are no real school leavers in Gonopaddi and all children are included in the Back to School Project. They have become their own change agents with the ability to transform the Sherpur district for a brighter future.

In the poverty-stricken village of Gonopaddi, most students learn English by memorizing exercises from their textbooks. After twelve years, most of them still cannot understand and read English. The Back to School English Club was established to help these students – ranging from grades six to grades eleven – develop the English language. Two months after the start of the club, the students have let go of their fears and are fully committed to learning English, driven by their enthusiasm to overcome illiteracy.

Goals of the initiative

- Improve students' understanding and communication skills in English.
- Improve their ability to network.
- Develop leadership qualities in students.
- Progression students in the field of technology.

CAREGUIDE

We care about the garments that we produce, so we choose our materials very carefully. Follow the instructions on the care label to enjoy these garments even more!

Washing tips

- Always read and follow the care label
- Read and follow the instructions on your detergent pack
- Use the recommended amount
- Polar fleece and sweats can best be washed before wearing
- Wash inside out
- Close zippers before washing
- Sort laundry by temperature in care label, 40 °C, 60 °C etc.
- Wash dark colours separate
- Don't iron on decorations
- Always wash a full load
- Pre-washing is not needed for most garments
- If you have a condenser dryer, reuse the water – it's great in irons

Washing & the environment

Washing and drying at home represents 75% of the energy used in a garment's life cycle, so it really is an area where you have an impact on the environment. For the best cleaning, we recommend washing your clothes at the temperature indicated on the care label. Often a piece of clothing only needs to be refreshed instead of cleaned and washing at 30°C is fine. Natural line drying reduces the amount of energy used in the aftercare process. However, it is not always practical and that is why many people use tumble dryers. When purchasing a dryer, think about a good energy classification so that you use the energy in the most efficient way.

LEMON & SODA AND SUSTAINABILITY

The Lemon & Soda catalog has been a well-known and major player in the promotional market for many years. In the coming years, with a view to sustainability, we will also be clearly visible online in addition to the catalogue.

This Lemon & Soda catalog is printed on FSC certified paper. This environmental certificate fits within our philosophy of taking responsibility as a company for our role within society and the living environment.

Lemon & Soda focuses on economic, social and living environment needs. Sustainability is an important pillar of the articles for Lemon & Soda. Our products are tested for longevity. The origin of materials is transparent and origin and fair working conditions are taken into account.

But it's not just our products where we implement sustainability. It also continues within business operations. Our aim is to install solar panels on the business premises by 2024. Since last year, there have been charging stations in front of the building for electric cars and we use green energy.

Lemon & Soda has its own large distribution center where used plastic is collected and recycled. Cardboard is reused and our employees think about the use of non-reusable materials.

Since 2023, Lemon & Soda has been affiliated with Stichting UPV Textiel. This foundation was established in response to the Decision on Extended Producer Responsibility (UPV Textiel) in the Netherlands, which holds importers and textile producers accountable for collection, recycling, and reuse. Over 650 companies have joined this collective initiative, currently representing more than 70% of the market. The foundation collectively organizes the collection and processing of discarded textiles to efficiently, effectively, and affordably meet the UPV obligations.

Lemon & Soda is for a livable future and takes nature and people into account.
